ANDY & RAMONA

KATIE & NATHAN

Dear Friends,

WELCOME!!!

We are pleased to present the best of our 2008 Long Yearling Bulls. It has been a busy past year with international visitors here at the ranch and the World Angus Forum at Spruce Meadows this past summer. This year's forum was truly a magnificent event which will surely be the yardstick that future Forum's will be measured by. We enjoyed ourselves and the new friendships we developed.

This year marks Willabar Ranch's 69th year in Purebred Black Angus. Our philosophy has remained unchanged. We have focused on our goal of producing a highly uniform, easy fleshing, productive cow herd that is well suited to typical ranch conditions. We breed for balance not extremes; we strive for as little hands on contact with the cows as possible, so having a balance of calving ease, growth performance and maternal traits is extremely important to us. Looking at this year's offering you will surely agree.

We are selling our bulls by video sale (*please contact us if you haven't received your DVD prior to sale day for preview*). You will have a much better opportunity to view our bulls in their natural environment. The bulls have been fed a silage/hay/grain total mix ration with chelated mineral package starting mid August. We lacked sufficient pasture for these guys, so they had to be moved onto the mixed ration earlier than our usual mid October. These bulls average 18 months of age on sale day. The extra age means they are bigger, more mature, and more powerful, able to breed more cows, hold their condition better and with less management. They are semen tested and ready to go. Scrotal measurements will be available sale day. No bulls will be sold prior to February 16th.

Our entire herd calves August/September which schedules breeding from mid November to just past New Year's. Weaning of that calf crop happens mid March and both the bulls and heifers are put on free choice hay until the spring supplies us with pasture.

If you can't make it to the sale and want to participate, we will gladly help in anyway. Give Andy, Ramona or any of the sale staff, listed to the right, a call if you have any questions.

Satisfaction is always guaranteed.

We would now like to take this opportunity to officially invite you to join us here at that Ranch February 16th, 2010 as we proudly present our 2008 calf crop. Lunch and hospitality always included.

Yours truly,

Andy & Ramona Hart

SIGHT UNSEEN PURCHASE PLAN

If you cannot attend in person please ask for a DVD of the sale offering.

Andy will be glad to discuss your needs and personally handle your purchase. Call to discuss your criteria, *the earlier the better!*

**SATISFACTION
GUARANTEED!!**

We Will be Selling the Bulls on Sale Day on **VIDEO**

The bulls will be available for viewing in pens adjacent to the sale barn before and during the sale but will not physically enter the barn during the sale. They will, instead, appear in a video clip (the same one minute of footage from the DVD) on a projection screen that will run continuously until each animal is sold. We do recommend that you come prior to sale day or allow yourselves enough time to study the animals closely prior to the commencement of the auction. Those in attendance have commented that they felt it was important to study all of the bulls prior to the sale and have an extensive list of potential selections to avoid disappointment. Remember, live bulls do not enter a sale ring.

We believe the opportunity to view the bulls in larger pens, where they are more comfortable, serves our buyers well. Our experience last year proved the video sale reduces stress on both bulls and people.

The 50P sons were very well received last year and for good reason - they are extra thick, easy doing bulls who combine low birth weight and strong growth. We made a point of keeping as many of his daughters as we could. They are moderate in frame size and much deeper ribbed than the direct daughters of CA Future Direction in our herd. Udder quality is very strong.

When doing the carcass ultrasound, the REA and IMF on 50P calves measured right up with the best AI sired calves.

Foresight was selected for his high accuracy balanced traits. He delivers moderate birth weight, along with weaning, yearling, milk and marbling numbers that rank him in the top 25% of the breed.

The sons and daughters show the added depth of rib that we appreciate.

528 was purchased from the Bowerman Bros at Meadow Lake, SK. He is a moderate framed deep ribbed full hipped son of OCC Legacy 839L, who has done such a powerful job for them and Crowfoot Cattle Co. We calved out the first daughters this summer and we are pleased with the way they are raising good calves while maintaining reasonable flesh in what I think you will agree has been one of the tougher winters we have seen in a while. Calving in September and nursing through the winter will put that ability to the test. You will find the Legacy sons to be very consistent and uniform images of their sire.

Objective was our AI sire used on our virgin heifers in 2007. He met all of our expectations with regard to calving ease. Since then his carcass numbers have steadily improved as have his weaning and yearling EPD's. In all these categories, he now ranks in the top 25% of the breed. Use his sons to improve calving ease and carcass merit.

87S was selected for use on our heifers in 2007. We wanted the combination of calving ease and growth performance of his sire but just as important was the foot and udder structure of his Leadtime mother.

We have been very pleased with the job 87S has done thus far, in fact many of the stand-out calves in our most recent calf crop are his progeny and we are looking forward to calving out his first daughters this summer.

The high selling bull in our '06 sale to the Iwaszuk family of High Prairie, 18P's progeny show the growth, muscle and character of their sire and, sure to be highlights, will be easy to pick out on sale day. Ultrasound scanning showed them to be above average for rib eye in the group. There are several herd sire prospects in this relatively small sire group.

36R was the high selling bull at Cooke Livestock 2006 bull sale. We were very familiar with his dam, Patricia 45C. The longevity and udder quality on the dam's side of the pedigree is beyond comparison.

36R attracted a tremendous response from World Forum visitors this year, with some feeling he was among the best herd sires they had seen. Dateline is a massive bull and yet very athletic and free moving. I very rarely see him service a cow and yet his group was better than 80% calved out after the first cycle this past summer

We have 5 calf crops out of 107N. His milk EPD has climbed 9 points since last year as his daughters achieve production. Their calm dispositions, attractive feminine front ends and ideal foot & udder structure will make them highly prized. The strength of any herd is the quality of the cows - Windy's will improve the maternal qualities of your heifers.

Terms & Conditions

TERMS OF SALE: The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance unless previous arrangements have been made.

- Every animal sells to the highest bidder and, in case of disputes, the auctioneer's decision will be final.
- Current exchange rates will be announced sale day.
- We reserve the right to withhold animals from export shipment for whom payments have not been received prior to departure times.

ALL CATTLE ARE SOLD: Subject to such tests as required for export under regulations of the Health of Animals Branch, Department of Agriculture for Canada - those corresponding to Bureau of Animal Industry requirements.

BREEDING GUARANTEE: All cattle are sound and right and sell with a responsible breeder guarantee of satisfaction. In the event of any unlikely dispute, the regular terms and conditions, standard with the Canadian Aberdeen Angus Association, shall apply.

ANNOUNCEMENTS: Errors discovered in the catalogue will be corrected by announcements from the auction stand at sale time and such corrections will take precedence over the printed matter in the catalogue.

MAIL BIDS: May be entrusted in complete confidence to any of the Sale Staff (see page 1) or to Willabar Ranch.

INSURANCE: Ownership risk to purchaser commences when the Auctioneer's hammer falls. Livestock coverage will be available at the clerks' desk from the appointed representatives on Sale Day.

CATTLE INSPECTION: All carry permanent identity tags corresponding to Sale Lot Numbers. All shall be available for inspection prior to the sale.

PLEASE NOTE:

Buyers not taking advantage the the \$50 incentive by bringing their own trailer on sale day will receive their purchases following the sale at the seller's convenience.

Although all reasonable care and attention will be given to the bulls after Sale Day, the seller **WILL NOT** be responsible for any type of injury while in seller's care. Therefore, ***the purchase of mortality insurance is strongly recommended!*** Insurance agent will be available sale day.

ALL PERSONS who attend the Sale do so at their own risk, and the owners, Management and Sale Staff assume no liability, legal or otherwise, for property loss or for any accidents that may occur.
